

No-Cost Energy Assessment

Identify potential **energy-saving** opportunities in your building

WHAT TO EXPECT

- ✓ An energy assessment usually takes 1-2 hours
- ✓ The Field Engineer will review the current electrical and/or natural gas consumption before the on-site assessment.
- ✓ An introduction to the NIPSCO Energy Efficiency Programs available to you

ASSESSMENT INCLUDES

- ✓ A review of on-site energy consuming systems for possible efficiency upgrades
- ✓ A general report identifying savings opportunities along with possible NIPSCO Energy Efficiency Program incentives that may help reduce project capital costs

SCHEDULE NOW

NIPSCO business customers can schedule a no-cost energy assessment to determine where they may be able to save money and energy. Scan the QR code, complete the form and one of our Field Engineer's will reach out to schedule your appointment.
